HOBBIES

Playing Badminton
Sketching
Listening to music

PROFILE

I am a dedicated and enthusiastic IT student with a passion for web development, artificial intelligence, data structures, algorithms, and programming at large. With a strong academic foundation and a relentless desire to learn, I am eager to contribute my skills and creativity to the dynamic world of technology.

PROJECTS

SYNCSRIPT

PERSONAL PROJECT

Realtime Code Collaboration Platform

March 2024 - May 2024

[GitHub](#)

Technology Used: ReactJS, Express, Socket.io, PasteBin, CodeMirror, Tailwind

- Real-time Collaboration: Edit code together with others in real-time, with instant updates visible to all collaborators in a shared workspace.
- Run and Share Code: Execute code directly within the webapp and easily share snippets with others using unique links for quick distribution and access.
- Interactive Workspace: Work in a collaborative environment with synchronized edits and built-in chat, facilitating teamwork and discussions.

BLOGGIT

PERSONAL PROJECT

Minimal Blogging Platform

April 2023 - June 2023

[Live Website](#) | [GitHub](#)

Technology Used: ReactJS, Firebase, Jotai, Chakra UI, Framer Motion

- User Authentication: user registration and login using Firebase authentication.
- Blog Creation: Intuitive blog creation interface with a rich text edit and the ability to add images, links, and format text in blog posts.
- Blog Sharing: Easy sharing of blogs via unique URLs and social media sharing integration for wider reach.
- Real-time Updates: real-time synchronization of blogs and comments using Firebase Realtime Database or Firestore.

FIRST PAGE

PERSONAL PROJECT

Book Exploration Platform

Nov 2022 - Jan 2023

[Live Website](#) | [GitHub](#)

Technology Used: ReactJS, Supabase, Redux, Vanilla CSS, Framer Motion

- Book Discovery: Utilizes the Google Books API to provide users with an extensive library of books for exploration and discover books by title, author, genre, or keywords.
- User Authentication: user registration and login using Supabase authentication.
- User Reviews and Ratings: View user-generated reviews and ratings to make informed decisions on book selections. Share your own reviews and ratings to contribute to the community.
- Save to Read Later: Easily manage and organize your reading queue.
